

JFrog
Brand Guidelines

The objective of this page is to define the core guidelines of JFrog's brand identity in order to maintain a common visual display among all parties working on the brand.
Abiding the guidelines ensures a consistent and coherent message.
The design scheme in this brand book displays Jfrog’s brand positioning, personality and values.

The Brand

The Brand Identity chapter in our company's brand guidelines is a comprehensive and insightful resource designed to demystify the essence of our brand and equip you with the knowledge and tools to represent it consistently and effectively. This chapter delves into the core elements that define our brand, including our mission, vision, values, and personality. By understanding these foundational aspects, you will gain a deeper appreciation for what sets our brand apart from others in the market. Moreover, we explore the visual and verbal components that shape our brand identity, such as logos, typography, color palette, and tone of voice.

Adhering to these guidelines will ensure a cohesive brand experience across all touchpoints, fostering trust, recognition, and loyalty among our target audience. This chapter empowers you to become brand ambassadors with the knowledge and tools to uphold and elevate our brand's reputation and impact. Together, let us unleash the full potential of our brand and create meaningful connections that resonate with our audience.

Company Vision & Mission

Powering the Software that Powers the World

Building a world of liquid software. Crafting an ecosystem where software flows without barriers. We are on a mission to empower organizations to innovate and bring their software ideas to life faster and more securely.

Launched in 2008, our journey in Liquid Software is about revolutionizing how companies manage and distribute software. In today's interconnected environment, the process of building and releasing software should be smooth, instilling confidence in enterprises about the quality and Security of their software. The JFrog software supply chain platform is the catalyst for innovation, allowing organizations to develop and deploy software with unprecedented speed and safety—our platform ushers in a new era of DevOps, DevSecOps, and MLOps standards that power continuous updates. We're creating a future where every enterprise can confidently push the boundaries of innovation while our platform takes care of the rest.

The Codex

Our company’s set of values;
Our north star

The JFrog CODEX is a set of core values written by our employees. It's a commitment to one another, the community, the market, and the world.
Every "Frog" that joins JFrog is immediately introduced to the CODEX and oriented by departmental executives during onboarding. As a communal set of values, every frog in every "swamp" around the world has a responsibility to uphold the CODEX in every interaction - internal or external.
The ten values outlined in our CODEX continue to be our "north star," with the commitments revisited annually to ensure relevance, accuracy, and completeness.

EVERYONE COUNTS EVERYONE MATTERS
Start the day with a “WE” commitment

INNOVATION
Dare to go beyond your comfort zone

COMMUNITY AND CUSTOMER HAPPINESS
Fueled by user satisfaction, be a pain solver focused on the solution and not on the problem

CARE
We care more, it’s the source of our better-ness

INTEGRITY
Morality, decency, transparency. You might make mistakes, but you should always play fair

OPEN COMMUNICATION
Anyone can approach everyone about anything at any time

THINKING BIG
Nothing is too small, every detail counts

AGILITY
Change is an opportunity

WIN!
With a “good enough” mindset, we’ll never achieve greatness

TEAM SPIRIT
Mutual trust, joint effort, collaboration

Brand Benefits

Company Logo

Our Logo

This is our logo. The appearance of the logo must be maintained.

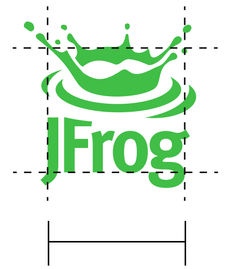

Alignment

Make sure you align the logo “center” is not based on the splash at the top, but based on the center base (JFrog).

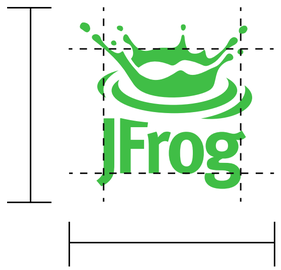

Sizing

The minimum width in print is 13mm.
The minimum width in digital is 100px. Exceptions require approval.

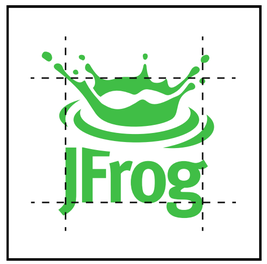

Clearance / padding

A clear space is the imaginary area surrounding the logo, thus preserving it’s visibility and preventing other design elements from overshadowing it.

Co-Branding

This guide is intended for use by JFrog partners to determine which visual and verbal branding treatments to use in each marketing scenario.

Marketing scenarios are campaigns, events, communications, or initiatives that can be Partner-led, JFrog-led, or Co-branded. Determining your marketing scenario and branding treatments will help you communicate your expertise and relationship with JFrog to your customers.

Please adhere to this guidelines and consult with your JFrog partner marketing manager as needed. For questions on co-branding with JFrog, please contact channelpartners@jfrog.com.

Determine Your Scenario & Brand

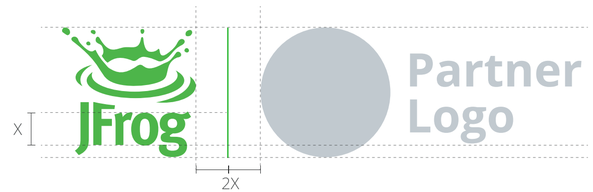

Marketing scenarios are campaigns, events, communications, or initiatives that can be Partner-led, JFrog led, and Co-branded.

- The leading partner brand should be on the left and the secondary brand should be on the right
- The two logos should be separated by a vertical line with roughly the amount of spacing show below
- The two logos should be of the same visual size
- Both logos should appear in full color on a plain white background whenever possible

Co-branded, JFrog-led

When JFrog is most heavily influencing the communications and activities, the JFrog corporation logo should be followed by the partner's logo.

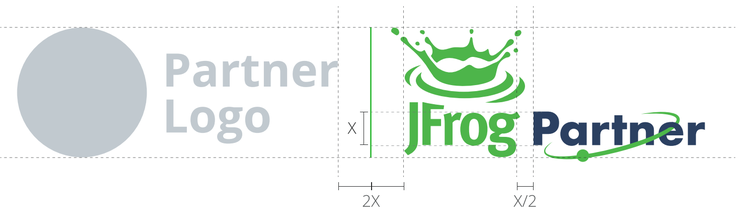

The two logos should be separated by a vertical line while keeping the same visual size and same spacing.

Co-branded, Partner-led

When the partner has primary control over content creation and messaging and/or the customer experience, the partner's logo should be followed by the JFrog Partner logo.

The two logos should be separated by a vertical line while keeping the same visual size and same spacing.

Brand Guidelines | Copyright @ 2024 JFrog Ltd.

JFrog Partner Logo

JFrog Partner logo help customers identify your expertise and relationship with JFrog.

To showcase your relationship with JFrog, you may use the standalone JFrog Partner logo to showcase your relationship in your marketing assets.

JFrog Partner logo is composed of the JFrog coporation logo and a logotype. The horizontal logo is the primary logo and should be used in most instances.

ADD A STACKED LOGO

Specifications

JFrog Partner logo size and clear space

Minimum size

- The logo can be scaled up as needed, but should never be smaller than the recommended minimum shown here.
- Minimum sizes are the same for all logo variations.

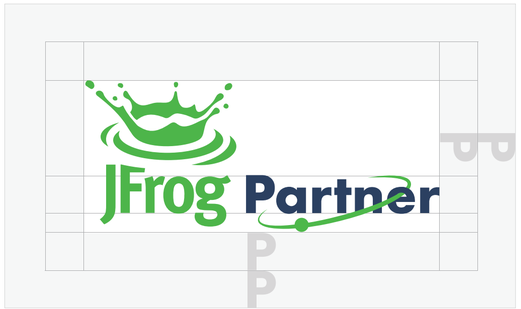

Minimum size

Print: 1.25 inches (approx. 32mm)

Digital: 90 px wide

Clear space

- The minimum clear space around the logo is equal to the height of the uppercase “P”. Recommended space is two “P” heights.
- Multiple designation logo clear space remains the same as more designations are added.
- Clear space requirements are the same for all logo variations.
